

## Daniel David Hernandez

September 2, 1948 - April 5, 2026

Daniel “Danny” David Hernandez, age 77, passed away peacefully on Easter Sunday, April 5, 2026, in New Orleans, Louisiana, surrounded by the love of his family.

A proud member of IBEW Local 130, Danny built a long and respected career as a master electrician, including 23 years of dedicated work at the Superdome, where his skill, precision, and strong work ethic were evident in everything he did. He also worked as a union film painter, bringing both craftsmanship and creativity to his work, and was a member of the Studio Mechanics Local Union #478.

Danny was a celebratory man who loved bringing people together and sharing life’s joys. He treasured time with his family, capturing memories through his amateur photography, and creating moments full of warmth, laughter, and connection. He was married to Fay Hernandez, and though they divorced, they remained best friends until the end, supporting each other and their family through every chapter of life.

He lived a life defined not only by hard work, but by curiosity and adventure. He traveled the world, was a certified scuba diver, and embraced the thrill of skydiving. Whether exploring the depths of the ocean or the open sky, he moved through life with a fearless and adventurous spirit.

At home, Danny found joy in his model airplanes and spent quiet hours looking up at the stars through his telescope, always searching and always wondering.

He is survived by his children, Nicole Hernandez, Monique Hernandez, and Daniel Duke Hernandez. His children will always carry forward the love he provided, and they will continue to spread their father's joie de vivre, the joy of living that he shared so freely with everyone around him.

Danny will be remembered for his strength, his skill, his celebratory spirit, and his boundless curiosity about the world. He leaves behind a legacy of resilience, craftsmanship, and a life fully lived.

A memorial service will be held at a later date.

Forever chasing horizons, whether in the sky, the sea, or the hearts of those he loved.
