“ I was fortunate to work with Jamie in the Department of Pathology/ Laboratory Medicine at UVA. Loved hearing about her travels and the next adventure. She loved to celebrate Madi Gras with gusto! We were on the same flight in February of this year and I took this picture.

Jamie went to Behrman High School in New Orleans and was part of our gang of friends. I'm so sorry to hear the news. I can think of so many fun adventures we all had together. Just way too many to enumerate here.

Jamie was my roommate in the dorm at Newcomb College and my Phi Mu sorority sister. It was great to see her at our 50th graduation anniversary class reunion a few years ago. I miss her for sure. Kathy Hickok

“ I am sorry to hear about Jamie, and my condolences to all of her family and friends. I was fortunate enough to have gotten to know Jamie early in my volunteer work with the ASC. She was a wonderful role model and mentor to many, as well as a first class individual all around! Diane D Davey, MD, Orlando, FL

“ I was truly sorry to hear of Jamie's passing. She was a very talented and knowledgeable in Cytopathology and she loved helping people learn. She was a true mentor to a host of cytologists and pathologists alike. I got to know her years ago through work in the Virginia Society of Cytology. She nominated me to run for the Cytotechnology Advisory Committee for the American Society of Cytopathology which started my professional career with the ASC. I will always be grateful to her. She will be missed. She was the quintessential Cytologist!!

“ The American Society of Cytopathology (ASC) is deeply saddened to learn of the passing of Jamie. Jamie was a dedicated member of the ASC for over 30 years, and her influence and mentorship shaped the careers of countless cytologists, residents, and fellows. She was truly a legend in the field of cytopathology. Those of us who had the privilege of working with her always found her to be a pleasure to be around. Jamie was a friend to many in the ASC; her laugh was part of the ASC meetings for decades.

On behalf of the ASC Executive Board and Membership, we extend our heartfelt condolences and sympathy for the loss of such an irreplaceable individual.

Sincerely,

*Beth Jenkins
Executive Director*

“ I was sorry to hear of Jamie passing. I worked with her at UVA for 30 years. She was my teacher when I entered the School of Cytotechnology. She was an incredible teacher and mentor. She was active in many of the organizations involved in teaching others about cytology. At UVA she was an incredible resource for the pathology residents who did a rotation in cytology. Her retirement from the University left a huge void in the department. She will be missed . Kyna Moore
